The Honeymoon Dashboard

Introduction

OUR STORY

In the world of overwhelming information spread about in many different places throughout the internet, planning your honeymoon location can be incredibly time consuming. Our company recognizes your needs, as partners, to make planning as efficient and painless as possible. Holidayta is delighted to present an easy to use honeymoon dashboard to quickly narrow down your ideal honeymoon locations based on a few simple quick filters.

BACKGROUND

Holidayta is a group of four women who know what's it like to day dream about the perfect honeymoon. We're travelers, experience junkies, hopeless romantics and data fanatics who came together to create the perfect tool to help all people vacation expertly, especially honeymooners.

Data Aggregation

COLLECTION

We've done the legwork of scouring the internet for you! We've brought together pre-existing datasets, API calls and web scraping to get all the information you need to plan your trip.

CLEANING AND NORMALIZATION

We first ensured our data's accuracy and then brought standardization and consistency in order to provide actionable insights for your decision making.

...IT ALL COMES TOGETHER

We've built a powerful vacation database and invite you to connect to it through our Honeymoon Dashboard!

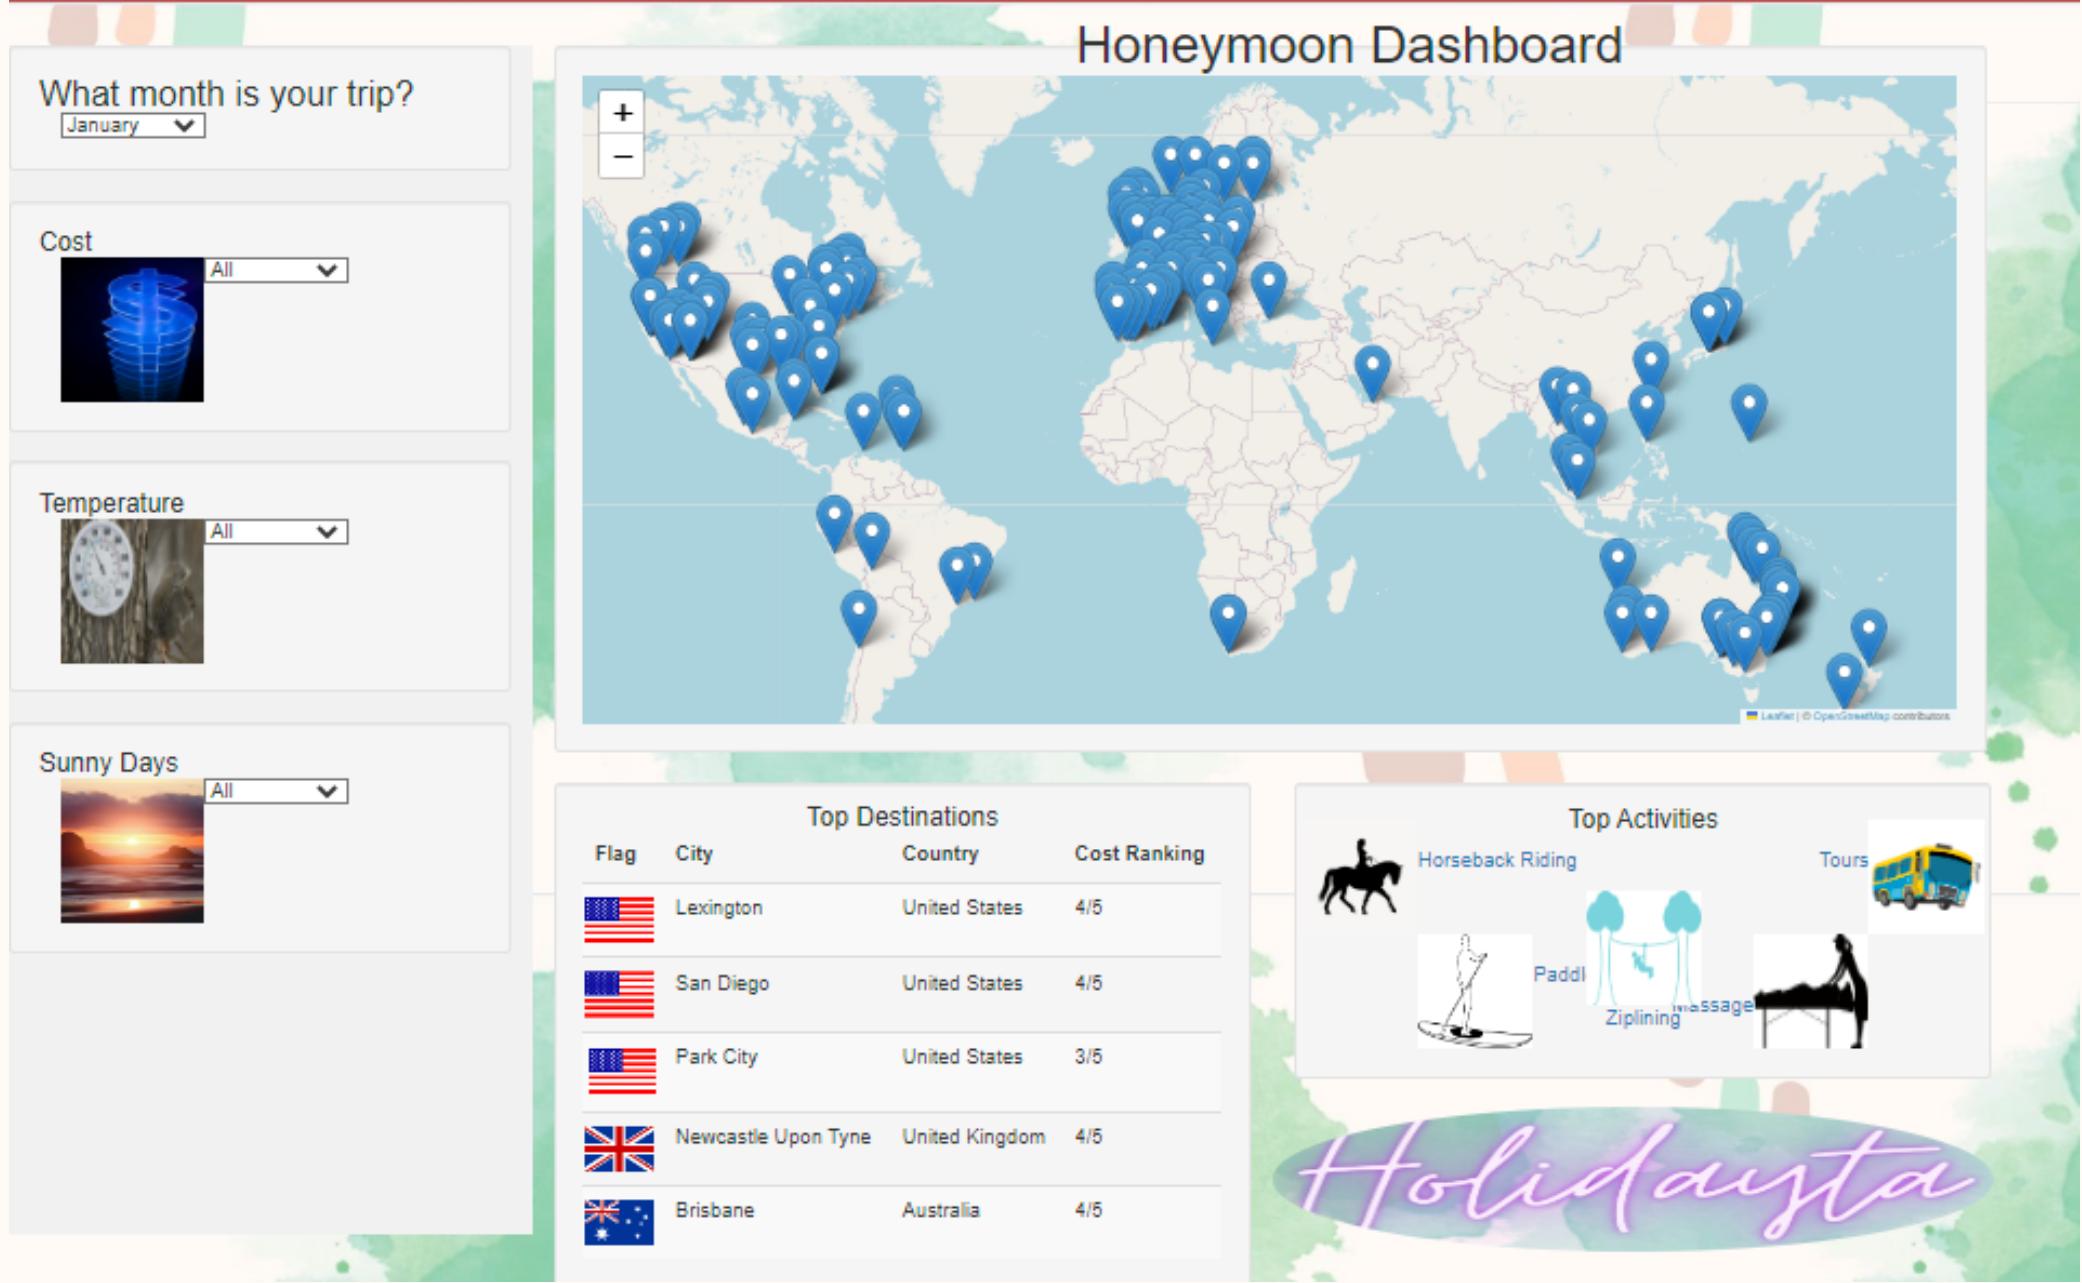

How we got there

	City
0	LexingtonKentucky, United States
1	San DiegoCalifornia, United States
2	Cook Islands
3	Park CityUtah, United States
4	Newcastle Upon TyneEngland, United Kingdom

+ & =
str.split

	City	Country	State/Province
0	Lexington	United States	Kentucky
1	San Diego	United States	California
2	Cook Islands	None	None
3	Park City	United States	Utah
4	Newcastle Upon Tyne	United Kingdom	England

The Honeymoon Dashboard puts information at your fingertips for 174 locations worldwide. You'll be able to filter based on the month of your trip, your cost constraints, and your ideal weather preferences.

We will then suggest vacation destinations for you based on your selections and let you know how expensive your trip will be in comparison to other destinations, as well as the top 5 activities to do while you're there!

Thank you

for all your support during our
development and deployment
